

AMENDED IN ASSEMBLY APRIL 13, 2009

CALIFORNIA LEGISLATURE—2009—10 REGULAR SESSION

ASSEMBLY BILL

No. 629

Introduced by Assembly Member Krekorian

February 25, 2009

An act to add Section 17577.5 to the Education Code, and to add Section 75020.5 to the Public Resources Code, relating to school facilities.

LEGISLATIVE COUNSEL'S DIGEST

AB 629, as amended, Krekorian. School facilities: water.

(1) Existing law establishes the School Facilities Needs Assessment Grant Program under which grants are awarded to school districts on behalf of schoolsites ranked in deciles 1 to 3, inclusive, on the Academic Performance Index, as specified. A school district that receives a grant is required to use the funds to develop a comprehensive needs assessment of all schoolsites eligible for grants. Among the information the assessment is required to contain is the useful life remaining on all major building systems, including the water system, for each structure housing instructional space.

This bill would require a school district *by January 1, 2012*, to conduct a one-time ~~assessment~~ *analysis* of the level of lead in water in schools with plumbing that has not been updated since 1993. The State Department of Public Health would be required to establish testing protocols. Water samples would be required to be analyzed by a laboratory that is certified by the State Department of Public Health or the United States Environmental Protection Agency. A school district would be required to report the results of the ~~assessment~~ *analysis* to the

State Department of Education, which would be required to make the information available to the public.

The bill would authorize a school district, if the ~~assessment~~ *analysis* reveals the presence, *at specified levels*, of lead in water that is available, *as specified*, for human consumption on a schoolsite, to compete for funding from the Safe Drinking Water, Water Quality and Supply, Flood Control, River and Coastal Protection Bond Act of 2006.

By requiring school districts to conduct the ~~assessment~~ *analysis* and report the results to the department, the bill would impose a state-mandated local program.

(2) The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.

This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: yes.

The people of the State of California do enact as follows:

1 SECTION 1. Section 17577.5 is added to the Education Code,
2 to read:

3 17577.5. (a) ~~By January 1, 2010, a~~ school district shall
4 conduct a one-time ~~assessment~~ *analysis* of the level of lead in
5 water in schools with plumbing that has not been updated since
6 1993. ~~Only sources where water is available for possible human~~
7 ~~consumption shall be assessed. The assessment~~ *water dispensed*
8 *from drinking water fountains and other fixtures that are intended*
9 *to convey water for human consumption shall be analyzed. The*
10 *analysis shall include, but not be limited to, a determination of the*
11 *presence and amount of lead in the water.*

12 (b) The State Department of Public Health shall establish testing
13 protocols. Water samples shall be analyzed by a laboratory that is
14 certified by the State Department of Public Health or the United
15 States Environmental Protection Agency. *The school district may*
16 *contract with a private certified laboratory or the county health*
17 *department laboratory, whichever is more cost-effective.*

1 (c) A school district that has conducted an ~~assessment~~ *analysis*
2 pursuant to this section shall report the results of the ~~assessment~~
3 *analysis* to the department, which shall make the information
4 available to the public.

5 (d) If the ~~assessment~~ *analysis* reveals the presence of lead in
6 water that is available *from a drinking water fountain or other*
7 *fixture intended to convey water* for human consumption on a
8 *schoolsite at a concentration that exceeds the lead action level in*
9 *the federal lead and copper rule of 15µg/L*, the school district
10 maintaining the schoolsite is eligible to compete for funds made
11 available from the Safe Drinking Water, Water Quality and Supply,
12 Flood Control, River and Coastal Protection Bond Act of 2006,
13 as set forth in Division 43 (commencing with Section 75001) of
14 the Public Resources Code in order to mitigate the contamination.

15 SEC. 2. Section 75020.5 is added to the Public Resources Code,
16 to read:

17 75020.5. If a school district completes an ~~assessment~~ *analysis*
18 of water toxicity levels in its schools pursuant to Section 17577.5
19 of the Education Code and the assessment *analysis* reveals the
20 presence of lead in water that is available for human consumption
21 on a schoolsite, the school district maintaining the schoolsite is
22 eligible to compete for funds made available pursuant to this
23 chapter.

24 SEC. 3. If the Commission on State Mandates determines that
25 this act contains costs mandated by the state, reimbursement to
26 local agencies and school districts for those costs shall be made
27 pursuant to Part 7 (commencing with Section 17500) of Division
28 4 of Title 2 of the Government Code.
